ABOUT ME

Detail-oriented Front-end Developer and certified IT Technician with a strong commercial background in building and administrating CMS platforms (WordPress with WooCommerce).

Passionate about modern JavaScript ecosystems, actively developing full-stack web applications using Next.js, React, and Supabase.

As a 3rd-year Aviation (Pilotage) student, I combine rigorous analytical thinking and strict adherence to procedures with the ability to solve complex technical problems under pressure.

SKILLS

- Front-end knowledge & projects
- WordPress commercial experience
- Technical problem solving
- Analytical thinking
- Rapid learning & adaptability
- Interest in IT, AI & new tech

LANGUAGES

Polish, native
English, communicative

PROJECTS

Commercial:
- sentistocks.com
- sentimenti.pl
- caridentdental.pl

Proof of Concept:
- QuizApp
- eLogbook

EXPERIENCE

Web Administrator

Sentimenti sp. z o.o.   *12.2024 – Present*

- Administering, optimizing, and developing commercial corporate websites (sentimenti.pl, sentistocks.com).
- Successfully refactored legacy systems, migrating architectures from Divi to Elementor to improve DOM structure and SEO performance.
- Engineered a recurring revenue e-commerce model using WooCommerce Subscriptions, performing a secure, zero-data-loss user database migration.
- Implemented full multilingual (i18n) support and automated affiliate architectures.

IT Intern (International Mobility)

KudosHealth, Sligo, Ireland   *07.2022 – 08.2022*

- Supported an Irish tech startup in developing and implementing digital solutions.
- Assisted in projects utilizing front-end technologies, including React, React Native, and WordPress.
- Collaborated effectively in an English-speaking development environment, demonstrating fast adaptation to new codebases and tech stacks.

IT Support Intern

COMP-SERWIS, Krosno   *04.2022 – 05.2022*

- Assisted in the technical analysis and field implementation of fiber-optic network infrastructure.
- Diagnosed and resolved network and hardware issues, developing strong logical troubleshooting skills.

IT & Web Development Intern

EuroNet, Miejsce Piastowe   *10.2020 – 04.2021*

- Built, configured, and deployed initial commercial websites using no-code/low-code platforms (WordPress, Wix).
- Performed comprehensive hardware diagnostics, computer repairs, and system maintenance.

EDUCATION

Rzeszów University of Technology   *10.2023 – Present*

B.Sc. in Aviation and Cosmonautics - 3rd year / full-time

Zespół Szkół Elektrycznych w Krośnie   *09.2019 – 05.2023*

IT Technician
